EXPERIENCE

Software Engineer Intern, ServiceNow <i>AI Voice Agent Analytics</i> - Shipped a conversation-history troubleshooting platform unifying 20+ data tables into per-call drill-down reports, deployed to 24+ enterprise customer instances serving 10K+ voice calls/day; cut report load 7s to under 1s - Owned scope through delivery with PM and design partners: authored PRDs, ran design reviews and sprint demos, presented to a VP and Senior Director, and closed high-priority customer defects solo - Built an AI-native trip planning and management system with the Office of the CEO for the CEO's EMEA customer and employee engagement tour	Jun 2026 – Sep 2026 San Diego, CA
Software Engineer Intern, ServiceNow <i>AI Voice Agents, IT Service Management • Technical Skills Award, top intern of 800+</i> - Owned the AWS Lex V1 to V2 migration end to end (8 intents, 48+ slots) ahead of end-of-life: shipped to production and validated live with an enterprise customer, unblocking the ITSM deployments queued behind it. Return offer - Built "Wrap Up," an AI call-summarization and closing flow, cutting average call-closing time 6 minutes across 10K calls/day per customer telemetry	Jun 2025 – Sep 2025 San Diego, CA
Software Engineer Intern (Intern Lead), Work4Flow <i>ServiceNow partner • remote</i> - Ran requirements gathering and client outreach directly with customers, then led 6 interns shipping two products approved by the PM for customer deployment - Built GenAI Observer end to end (UI and backend): LLM-backed prompt evaluation with binary and numeric scoring plus autonomous prompt refinement; built the ServiceNow to Smartsheet (SPM) sync layer over webhooks and polling	May 2024 – Dec 2024 Santa Clara, CA
Engineering Manager, Triton Software Engineering <i>Software Developer, Sep 2023 – Sep 2024</i> - Led 11 developers and designers for a live nonprofit client across two delivery cycles of a MERN fundraising and legislative platform that raised \$75K - Shipped the Union Station Homeless Services housing portal for LA County's sole provider of those services: media upload, validated intake, bulk exports built to their staff's workflow	Sep 2024 – Jun 2025 San Diego, CA
AI Research Fellow & Agentic Systems Lead, Laboratory for Emerging Intelligence, UCSD <i>Nov 2024 – Present</i> - Lead 6 engineers on a Teradata-funded agentic workbench piloted with 100+ staff and faculty, gathering requirements directly from stakeholders; 60+ MCP servers over 600 UCSD APIs - Deployed the AI Tutor to UCSD, SDSU, and Cal Poly Pomona across 10 courses; a controlled study over 600+ students measured 64% fewer TA overtime hours	Nov 2024 – Present
Founding Software Engineer, Stealth Startup <i>Autonomous systems • part-time</i> Building low-latency C2 dashboards folding telemetry into one common operating picture, and reliable comms for edge nodes in degraded environments; deploying and triaging on physical hardware via hardware-in-the-loop testing	Aug 2026 – Present
